International Journal of Information and Electronics Engineering

CONTENTS

Volume 5, Number 6, November 2015

- **Computer Science and Engineering Applications**

Advanced Control Algorithm: Applications to Industrial Processes……...……...398
A. Ramdani, S. Grouni, and M. Tra ̈che

A Novel Full Comparator Design Based on Quantum-Dot Cellular Automata…….....406
Davoud Bahrepour

The Simulation of the VAPS XT Cockpit Display and Control System Based on the Integrated Data Distribution Network.....411
Jia Liu and Tianjiang An

Feasibility Analysis of 4G Wireless Technology in Ubiquitous m-Health System in Bangladesh……...…417
N. Sultana, M. A. Islam, and N. Ullah

Automatic Speaker Recognition System in Adverse Conditions — Implication of Noise and Reverberation on System Performance……...…….…423
Khamis A. Al-Karawi, Ahmed H. Al-Noori, Francis F. Li, and Tim Ritchings

RFID Based Indoor Navigation with Obstacle Detection Based on A* Algorithm for the Visually Impaired ……..…428
Jayron Sanchez, Analyn Yumang, and Felicito Caluyo

A Microcontroller-Based Egg Candling System.....433
Akanji S. Saidu and Abdussamad U. Jibia

Research on Mobile Multi-bank Divisible e-Cash Protocol……..……...……..437
Ting Huang

A Study on Fourth Generation Wireless Network Using QualNet Simulator……...……..……...441
Arthi Balasundaram, L. Rajesh, and K. Bhoopathy Bagan

Simultaneous Authentication System for Cooperation Verification……...446
Kenta Soneda, Akane Ito, and Manabu Okamoto

Multi-sensor Data Fusion Model Based Kalman Filter Using Fuzzy Logic for Human Activity Detection…..450
Nattawut Wichit and Anant Choksuriwong

- **Image Processing Technology**

Effects of the Unscented Kalman Filter Process for High Performance Face Detector…….....454
Bikash Lamsal and Naofumi Matsumoto

Information Hiding: A New Multi Watermark Algorithm Using Radon Transformation….....460

Omer Siddik and Ersin Elbasi

Using Fuzzy Logic to Enhance the Large Size Remote Sensing Images……464
Trung Nguyen Tu, Huy Ngo Hoang, and Thoa Vu Van

Directional Blurred Shape Model Descriptor for Sketched Symbol Recognition…….....469
Wei Deng, Lingda Wu, Zhonghua Yao, and Yashuai L ü

Real-Time System Implementation for Image Processing with Hardware/Software Co-design on the Xilinx Zynq Platform……...……..473
M. Ali Altuncu, Taner Guven, Yasar Becerikli, and Suhap Sahin
